Forensic Science International, 55 (1992) 201–203
Elsevier Scientific Publishers Ireland Ltd.

SUBJECT INDEX
Volume 55 (1992)

alcohol, female homicide, self-destructive behaviour, alcohol and violence, 93
alcohol and violence, female homicide, alcohol, self-destructive behaviour, 93
amphetamine, drugs of abuse, cannabis, heroin, cocaine, methadone, benzodiazepines, 67
autopsied drug addicts, HIV-1 seropositivity, 83

ballistics, pellet dispersion, pellet statistics, dispersion index, effective shot dispersion, firing distance, choke, barrel length, shotgun, 105
barrel length, ballistics, pellet dispersion, pellet statistics, dispersion index, effective shot dispersion, firing distance, choke, shotgun, 105
behavioural science, rape, sexual assault, offender profiling, 173
benzodiazepines, drugs of abuse, cannabis, heroin, amphetamine, cocaine, methadone, 67
biostatistical analysis, DNA fingerprinting, multilocus probe, paternity testing, 45
bloodstain, γ-seminoprotein, p30, prostate-specific antigen, enzyme immunoassay, sex discrimination, 161
bloodstains, red blood cells, scanning electron microscopy (SEM), 139

C3a, vital reaction, C3a desArg, immunoblotting, incised wound, guinea pig skin, 37
C3a desArg, vital reaction, C3a, immunoblotting, incised wound, guinea pig skin, 37
cannabis, drugs of abuse, heroin, amphetamine, cocaine, methadone, benzodiazepines, 67
cause of death, substance abuse mortality, overdose mortality, forensic medicine, heroin poisoning, methadone poisoning, propoxyphene poisoning, 75
choke, ballistics, pellet dispersion, pellet statistics, dispersion index, effective shot dispersion, firing distance, barrel length, shotgun, 105
cocaine, drugs of abuse, cannabis, heroin, amphetamine, methadone, benzodiazepines, 67

D1S80 locus, DNA polymorphisms, polymerase chain reaction (PCR), HLA-DQA1 locus, 27
delayed blow-back action, weapons, history, marks on cartidges, 5
dispersion index, ballistics, pellet dispersion, pellet statistics, effective shot dispersion, firing distance, choke, barrel length, shotgun, 105
DNA fingerprinting, multilocus probe, biostatistical analysis, paternity testing, 45
DNA polymorphisms, polymerase chain reaction (PCR), HLA-DQA1 locus, D1S80 locus, 27
drugs of abuse, cannabis, heroin, amphetamine, cocaine, methadone, benzodiazepines, 67

effective shot dispersion, ballistics, pellet dispersion, pellet statistics, dispersion index, firing distance, choke, barrel length, shotgun, 105
enantiomer determination, methamphetamine, nuclear magnetic resonance, 2,3,4,6-tetra-*O*-acetyl-β-D-glucopyranosyl isothiocyanate, 131
enzyme immunoassay, γ-seminoprotein, p30, prostate-specific antigen, sex discrimination, bloodstain, 161

female homicide, alcohol, self-destructive behaviour, alcohol and violence, 93
firing distance, ballistics, pellet dispersion, pellet statistics, dispersion index, effective shot dispersion, choke, barrel length, shotgun, 105
forensic medicine, substance abuse mortality, overdose mortality, cause of death, heroin poisoning, methadone poisoning, propoxyphene poisoning, 75
frequencies, HLA-DQA1, polymerase chain reaction (PCR), 59

guinea pig skin, vital reaction, C3a, C3a desArg, immunoblotting, incised wound, 37
heroin, drugs of abuse, cannabis, amphetamine, cocaine, methadone, benzodiazepines, 67

heroin poisoning, substance abuse mortality, overdose mortality, forensic medicine, cause of death, methadone poisoning, propoxyphene poisoning, 75
history, weapons, delayed blow-back action, marks on cartidges, 5
HIV-1 seropositivity, autopsied drug addicts, 83
HLA-DQA1, frequencies, polymerase chain reaction (PCR), 59
HLA-DQA1 locus, DNA polymorphisms, polymerase chain reaction (PCR), D1S80 locus, 27

immunoblotting, vital reaction, C3a, C3a desArg, incised wound, guinea pig skin, 37
incised wound, vital reaction, C3a, C3a desArg, immunoblotting, guinea pig skin, 37
IR, phencyclidine, street analogs, spectra, NMR, UV, MS, 13

marks on cartidges, weapons, delayed blow-back action, history, 5
methadone, drugs of abuse, cannabis, heroin, amphetamine, cocaine, benzodiazepines, 67
methadone poisoning, substance abuse mortality, overdose mortality, forensic medicine, cause of death, heroin poisoning, propoxyphene poisoning, 75
methamphetamine, nuclear magnetic resonance, enantiomer determination, 2,3,4,6-tetra-*O*-acetyl-β-D-glucopyranosyl isothiocyanate, 131
MS, phencyclidine, street analogs, spectra, NMR, UV, IR, 13
multilocus probe, DNA fingerprinting, biostatistical analysis, paternity testing, 45
NMR, phencyclidine, street analogs, spectra, UV, IR, MS, 13

nuclear magnetic resonance, methamphetamine, enantiomer determination, 2,3,4,6-tetra-*O*-acetyl-β-D-glucopyranosyl isothiocyanate, 131

offender profiling, behavioural science, rape, sexual assault, 173
overdose mortality, substance abuse mortality, forensic medicine, cause of death, heroin poisoning, methadone poisoning, propoxyphene poisoning, 75

p30, γ-seminoprotein, prostate-specific antigen, enzyme immunoassay, sex discrimination, bloodstain, 161
paternity testing, DNA fingerprinting, multilocus probe, biostatistical analysis, 45
pellet dispersion, ballistics, pellet statistics, dispersion index, effective shot dispersion, firing distance, choke, barrel length, shotgun, 105
pellet statistics, ballistics, pellet dispersion, dispersion index, effective shot dispersion, firing distance, choke, barrel length, shotgun, 105
phencyclidine, street analogs, spectra, NMR, UV, IR, MS, 13
polymerase chain reaction (PCR), DNA polymorphisms, HLA-DQA1 locus, D1S80 locus, 27
polymerase chain reaction (PCR), HLA-DQA1, frequencies, 59
propoxyphene poisoning, substance abuse mortality, overdose mortality, forensic medicine, cause of death, heroin poisoning, methadone poisoning, 75
prostate-specific antigen, γ-seminoprotein, p30, enzyme immunoassay, sex discrimination, bloodstain, 161

rape, behavioural science, sexual assault, offender profiling, 173
red blood cells, bloodstains, scanning electron microscopy (SEM), 139

scanning electron microscopy (SEM), red blood cells, bloodstains, 139
self-destructive behaviour, female homicide, alcohol, alcohol and violence, 93
γ-seminoprotein, p30, prostate-specific antigen, enzyme immunoassay, sex discrimination, bloodstain, 161
sex discrimination, γ-seminoprotein, p30, prostate-specific antigen, enzyme immunoassay, bloodstain, 161
sexual assault, behavioural science, rape, offender profiling, 173
shotgun, ballistics, pellet dispersion, pellet statistics, dispersion index, effective shot dispersion, firing distance, choke, barrel length, 105
spectra, phencyclidine, street analogs, NMR, UV, IR, MS, 13

street analogs, phencyclidine, spectra, NMR, UV, IR, MS, 13
substance abuse mortality, overdose mortality, forensic medicine, cause of death, heroin poisoning, methadone poisoning, propoxyphene poisoning, 75

2,3,4,6-tetra-*O*-acetyl-β-D-glucopyranosyl isothiocyanate, methamphetamine, nuclear magnetic resonance, enantiomer determination, 131

UV, phencyclidine, street analogs, spectra, NMR, IR, MS, 13

vital reaction, C3a, C3a desArg, immunoblotting, incised wound, guinea pig skin, 37

weapons, delayed blow-back action, history, marks on cartidges, 5

Forensic Science International, 55 (1992) 205
